### E260 Abbreviated instruction

- This watch is solar-powered. Expose the dial to light and use it sufficiently charged.
- To see details of charging time, specifications and operations, refer to the instruction manual: [E260 instruction manual](http://www.citizenwatch-global.com/support/pdf/enhanced/e.pdf)

### Component identification

![Component identification diagram]

- Actual appearance may differ from the illustration.
- The crown has two positions when pulling it out.
- Refer also to our web page for detail of usage of the scale and bezel on the watch.

### Setting the time and date indication

#### Setting the time

1. **Pull the crown out to position 2 when the second hand points 0 second.**
   The second hand stops.

2. **Rotate the crown to set the time.**
   - Change of date indication shows it just became AM. Take care the time set is AM or PM.
   - Move the hands 4 or 5 minutes forward and move them back to the right time to set the time more precisely.

3. **Push the crown in to position 0 in accordance with a reliable time source.**
   The second hand starts moving.

#### Setting the date indication

- Date indication adjustment is required on the first days of March, May, July, October and December.

1. **Pull the crown out to position 1.**

2. **Rotate the crown counterclockwise to set the date indication.**
   - The crown turns freely and the date does not change if the crown is turned to the right.

3. **Push the crown in to position 0 to finish the procedure.**

### Indicating the time of another place

You can set the dual time hand to indicate time of another place.

1. **Set the crown to position 0 or 1.**

2. **Press and release the upper left button C to adjust the time.**
   - Each time you press the button, the dual time hand moves by 1 hour.
   - The dual time hand returns to "0" just after proceeding to "24".

3. **Pull the crown out to position 2 when the second hand points 0 second.**
   The second hand stops and the dual time hand points to the current minute.
   - While setting the minute of dual time, the dual time hand indicates the minute in 5-minute increments as follows:

   ![Minute setting diagram]

4. **Press and release the upper left button C to adjust the minute.**
   - Each time you press the button, the dual time hand moves by 5 minutes.
   - The dual time hand returns to "0" just after proceeding to "24".

5. **Push the crown in to position 0 in accordance with a reliable time source.**
   The second hand starts moving and the dual time hands returns to time indication.

The dual time hand shows 25 minutes in this figure.
Checking the reference position

1. Pull the crown out to position 2.
2. Press and hold the lower right button A for 5 seconds or more.
   The dual time hand moves to its current reference position.
3. Checking the reference position
   Correct reference positions:
   • Dual time hand: “0”

   ![Reference Position Diagram]

   When the current reference position is different from the correct one, adjust the position following the steps of “Correcting the reference position”.

4. Push the crown in to position 0 to finish the procedure.

Correcting the reference position

1. Pull the crown out to position 2.
